ANNUAL REPORT
DEPARTMENT OF EDUCATION
PART II

INTRODUCTION

Important statistics on education in Massachusetts for 1965-1966 are presented in the following pages. For convenience in locating salient items and to aid in the interpretation thereof, the data are structured in tabular form.

In addition to material similar to that published in previous years, the Department's Division of Research and Development this year has included a number of other categories. The definitions and classifications in this edition remain the same as those used in previous years. Sections are broken down into tables of closely related information.

Cities and towns are listed alphabetically and followed by regional school districts. Grade organization information is condensed into Elementary (Grades 1 - 6 and 1 - 8) and Secondary (Grades 7 - 12 and 9 - 12).
